SINTON INCLUSIVE PLAYGROUND

PROPOSAL #125-177335-2

CLIMBING
Climbing brings adventure and challenge to the playground while providing necessary developmental benefits such as balance, agility, upper and lower body strength and decision-making skills. When children climb, they develop confidence and take age-appropriate risks that help build skills that will help them throughout their lives.

INNOVAB ROCKER
The INNOVA® Rocker enhances inclusive play and allows all children to play independently while developing balance, coordination, communication, and social skills. The INNOVA® Rocker encourages children to play together at the heart of the action and provides a true universal play experience for children of all abilities. It's a rocker of a rocking experience if we do say so ourselves.

PLAYSENSE®
The PLAYSENSE® keeps a high level of musical expression in environments around the world. With a universal language that is unique to each child, music becomes a sense of wonder to the play environment. Musical experiences in play allow children to develop intellectually, socially and emotionally as well as enhance overall motor skills, language, and literacy.

PLAY VARIETY
This design offers the perfect solution for a great playground and ensures that the necessary and age-appropriate play components are included. With various slides, climbers, and spinning areas, kids will be able to enhance physical fitness while having fun playing.

SLIDING
Slides help develop children's balance and coordination, promote self-confidence and provide thrilling fun.
OVERALL BOUNDING OF USE ZONES
Area: 7998.9 sq.ft.
Perimeter: 367.6 ft.
STRUCTURE SIZE: 70' 10" x 113' 1"
POST SIZE(5): 5"

"The space requirements shown here are to ASTM standards. Requirements for other standards may be different.

PLAYGROUND ACCESSIBILITY (Provided/Required)

</tbody>
</table>

Note: Although all attempts have been made to provide an accurate site, it may not truly represent the area where this structure is to be placed.

Warning: Accessible safety surfacing material is required beneath and around this equipment that is compliant with ASTM, CPSC, and ADAAG requirements.

The use and layout of play components identified in this plan conform to the CPSC guidelines. U.S. CPSC recommends the separation of age groups in playground layouts.
CONNECTION REIMAGINED - Create connections that move you with Burke's Konnection Swing, an incredible experience that promotes intergenerational play, engagement and interaction when adults and children swing together. Children can also enjoy swinging together and older children can engage with younger children while advancing skills such as cooperation, teamwork and developing their proprioceptive systems. A welcoming, clean form characterizes the Konnection Swing and ease of use is inherent in the construction right down to the details in the sliding backrest and comfortable, contoured design. Help foster true connection with the Konnection Swing and be moved by the power of playing together.
PLAY THAT MOVES YOU®

There's nothing quite like the joy of swinging. The feeling of freedom and flying while the ground fades away and you feel like a bird, like a plane or even a superhero. The Freedom inclusive Swing Seat allows children of all abilities to enjoy the childhood joy of swinging in a safe and secure seat created just for them. Pair it with a standard Burke swing beam and accessible surfacing to create an inclusive playspace everyone can enjoy!
We are pleased to provide this estimate for
